DESIGN GUIDE

ABOUT US

With over 15 years of experience, Buildrite Joinery is dedicated to delivering premium quality craftsmanship whilst understanding every clients vision.

As a trusted partner in the industry, we collaborate with some of Sydney's leading builders, architects, and interior designers to transform residential and commercial spaces with precision and style.

Whether working directly with homeowners or as part of a larger construction team, our focus remains on creating functional, stylish and lasting joinery solutions tailored to each client's needs.

EXPERT CRAFTSMANSHIP

PRECISION WORK

ON-TIME DELIVERY

CNC TECHNOLOGY

At Buildrite Joinery, we take great pride in merging traditional craftsmanship with innovative technology, enabling us to achieve exceptional results in a timely manner.

Our state-of-the-art CNC (Computer Numerical Control) machine allows us to achieve unparalleled accuracy and efficiency in all of our joinery projects.

OUR PROCESS

01 CONSULTATION

Our process begins with a thorough consultation to understand the client's vision.

- Meet with clients, builders, or architects to discuss project scope
- Provide initial insights on materials, finishes, and designs
- Discuss timelines and budget considerations

02 DESIGN & PLANNING

After the initial consultation, our design team gets to work.

- Creating 3D visualizations and detailed drawings
- Selecting the most suitable materials, finishes, and hardware
- Incorporating client feedback to refine the design

03 PRODUCTION

Once the design is approved and signed, all plans will be sent to our factory.

- Utilize our machinery to precisely cut and collect all necessary pieces needed for the installation
- Hand-finishing pieces to enhance quality and craftsmanship
- Ensuring each component meets our exacting standards

04 INSTALLATION

Installation is a critical phase where our attention to detail truly shines.

- Manage builders and site managers for smooth installation
- Ensure efficient fit-out whilst keeping our high quality standards
- Finalize installation through necessary adjustments

05 HANDOVER

In the final stage, we conduct a detailed walkthrough with the client to ensure their satisfaction.

CABINETS

PROFILES

Your cabinet profile sets the tone for your entire kitchen. Whether you're after a sleek modern look or something more detailed and traditional, the profile refers to the shape and style of the cabinet doors. Each option creates a unique feel and can be paired with different colours, finishes, and handles to match your design vision.

Pricing can vary depending on the level of detail and the type of finish (e.g. painted, wrapped, or routed). Simpler profiles like flat panels are more budget-friendly, while styles like shaker or raised panel require more labour and materials.

During your design consultation, we'll walk you through each profile in person, explain the pros and cons, and help you match it with handles, colours, and finishes that bring your vision to life.

SHAKER

STYLE: Classic, Timeless

LOOK: Hamptons, Traditional, Transitional kitchens

PAIR: Cup handles or knobs for a heritage look

SLAB

STYLE: Modern, Minimalist

LOOK: Contemporary kitchens, sleek interiors

PAIR: Finger-pull for seamless finish

PAIR: Slim handles or knobs for a polished touch

BEADBOARD

STYLE: Coastal, Cottage

LOOK: Farmhouse, Country, Beach-style kitchens

PAIR: Traditional handles or knobs for a homely touch

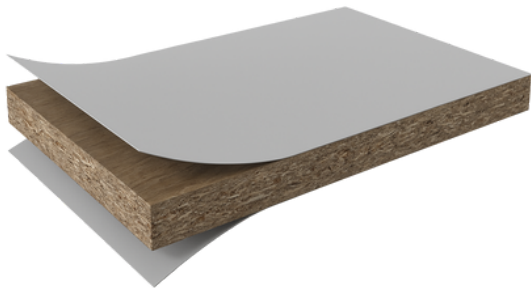

MATERIAL

FINISHES

The material and finish you choose for your cabinetry can completely change the look, feel, and durability of your kitchen. From entry-level options like melamine to premium finishes like polyurethane, each brings a unique texture, style, and maintenance level.

ENTRY LEVEL

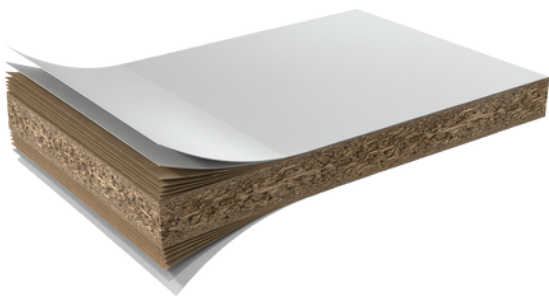

MELAMINE

- FINISH TYPE:** Durable, Low-Sheen
- APPEARANCE:** Smooth or lightly textured, available in solid colours and woodgrains
- BENEFITS:** Cost-effective, easy to clean, and resistant to everyday wear

AFFORDABLE

LAMINATE

- FINISH TYPE:** Semi-High Gloss, Textured
- APPEARANCE:** Wide variety of colours, patterns, and textures including stone and timber looks
- BENEFITS:** Scratch-resistant, easy to clean, with plenty of design flexibility

POLYURETHANE

- FINISH TYPE:** Smooth, Seamless
- APPEARANCE:** Many surfaces such as matte, satin, or high-gloss finishes
- BENEFITS:** Fully customisable colours, no edge tape, premium look with a flawless finish

PREMIUM

TIMBER VENEER

- FINISH TYPE:** Natural, Oil-based
 - APPEARANCE:** Real timber grain in various species and tones
 - BENEFITS:** Premium timber look, more stable than solid timber
-

SOLID TIMBER

- FINISH TYPE:** Textured, Natural
 - APPEARANCE:** Rich, organic grain with unique natural variation
 - BENEFITS:** Long-lasting, durable, adds warmth and character
-

AXOLOTL

- FINISH TYPE:** Metal Surface, Textured Look
- APPEARANCE:** Textured metal finishes in bronze, brass, copper, and more
- BENEFITS:** Visually striking, unique, durable, custom look

OVERLAY

CABINET DOOR

Cabinet door overlay plays a big role in both the look and function of your kitchen. Whether it's a sleek modern look or a more traditional feel, these choices impact the overall look of the kitchen. Keep in mind that other elements can influence this choice, such as your choice of handles.

FULL OVERLAY

STYLE: Modern, Seamless

Covers the entire cabinet frame, creating a clean, seamless look with minimal gaps between doors.

This style maximises storage space due to wider internal access.

PARTIAL OVERLAY

STYLE: Classic, Traditional

Sitting over part of the cabinet frame, leaving a visible gap between doors and drawers.

It's a cost-effective option that provides a classic, familiar look and is often easier to install or adjust.

INSET

STYLE: Traditional, Seamless

Flush finish inside the cabinet frame for a refined, timeless appearance.

Creates a high-end look with a solid, built-in feel. It may reduce internal space slightly but adds a premium finish.

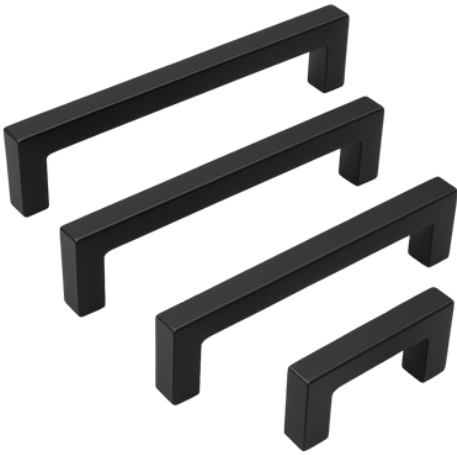

HANDLES

CABINETS

Handles are the finishing touch that can define your kitchen's style. From sleek finger pulls and push-to-open systems to classic knobs and bar handles, they offer both function and personality. Choose a style that complements your cabinetry and enhances day-to-day usability.

BENCHTOP

SELECTION

A benchtop is one of the most used surfaces in the kitchen, choosing the right material matters. From affordable laminates to premium stone, each option offers a unique balance of style, durability, and maintenance. Many of these finishes are available in a wide range of colours and styles

ENTRY LEVEL

LAMINATE

- FINISH TYPE:** Semi Smooth, Printed Surface
- APPEARANCE:** Mimics stone, timber, or solid colours with a clean finish
- DURABILITY:** Stain resistant, but can be damaged by high heat

AFFORDABLE

PORCELAIN

- FINISH TYPE:** Ultra-Smooth, Glazed, Textured
- APPEARANCE:** Sleek stone-look surface, often with realistic veining
- DURABILITY:** Extremely hard-wearing, heatproof and non-porous, prone to chipping if not sealed

TIMBER/HARDWOOD

- FINISH TYPE:** Natural Grain, Oiled or Sealed
- APPEARANCE:** Warm and organic with unique grain patterns and colour variation
- DURABILITY:** Can scratch or stain but is repairable through sanding and refinishing

QUARTZ

- FINISH TYPE:** Smooth, Engineered Stone
- APPEARANCE:** Consistent patterns and colours with a sleek, modern look
- BENEFITS:** Highly durable, non-porous, stain and scratch resistant with minimal maintenance
-

GRANITE

- FINISH TYPE:** Polished, Natural
- APPEARANCE:** Natural stone with unique speckled patterns and rich colour variation
- BENEFITS:** Extremely hard and heat resistant, low maintenance when sealed properly
-

PREMIUM

CONCRETE

- FINISH TYPE:** Textured or Polished
- APPEARANCE:** Raw, industrial look with natural pits and colour variation
- BENEFITS:** Strong and heat resistant, but can stain or crack if not properly sealed and maintained
-

MARBLE

- FINISH TYPE:** Polished, Honed, Natural
- APPEARANCE:** Elegant, natural veining with soft, light-toned colour palettes
- DURABILITY:** Heat resistant but porous and prone to staining or etching without regular sealing and care

SPLASHBACKS

SELECTION

Splashbacks are both practical and decorative, protecting your walls from moisture and stains while adding a stylish focal point to your kitchen. From sleek glass to textured tiles or natural stone, your splashback choice can complement your benchtop or make a bold design statement.

LAMINATE

**FINISH TYPE**

Matte, Textured

BENEFITS

Budget-friendly without compromising style

DURABILITY

Scratch and stain resistant but not heat

STAINLESS STEEL

**FINISH TYPE**

Brushed Stainless Steel

BENEFITS

Hygienic and easy to clean with slick look

DURABILITY

Resists heat, moisture, and wear extremely well

WINDOW

**FINISH TYPE**

Aluminium Frame w/ Glass

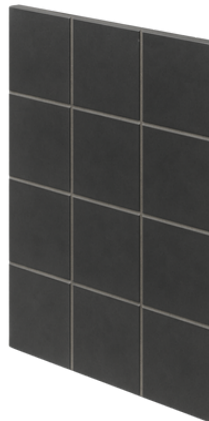

BENEFITS

Sleek, Long lasting and easy to clean

DURABILITY

Resists heat and moisture but scratch prone

TILES

**FINISH TYPE**

Gloss, Matte, Satin

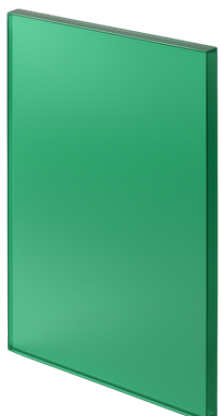

BENEFITS

Variety of styles/shapes and easy to clean

DURABILITY

Very resistant to heat but not scratches or staining

GLASS

**FINISH TYPE**

Back-Painted Glass

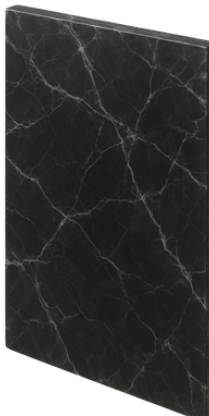

BENEFITS

Easy to clean with custom colours

DURABILITY

Scratch, Stain & Heat resistant but high impact

STONE

**FINISH TYPE**

Aluminium Frame w/ Glass

BENEFITS

Variety of styles and bold appearance

DURABILITY

Scratch & Heat resistant but may stain

FEATURES

ADD-ONS

Upgrade your kitchen with smart, stylish, and functional upgrades. From electric draw systems to seamless integrated appliances, each feature adds a layer of convenience, luxury, and innovation to your kitchen. Whether you're aiming for a sleek minimalist look or clever space-saving solutions.

PULL OUT PANTRY

Maximise storage and access in even the narrowest spaces with our sleek pull-out pantry system.

Designed for modern kitchens, this vertical storage solution glides smoothly to reveal multiple adjustable shelves. Perfect for organising dry goods, spices, oils, and more.

LED LIGHTING

Add warmth, ambiance, and functionality with integrated LED lighting.

Whether it's under-cabinet lighting, interior drawer illumination, or feature lighting within open shelving, our LED solutions are both stylish and energy-efficient.

INTEGRATED APPLIANCES

Create a seamless and sophisticated kitchen with fully integrated appliances.

Designed to blend effortlessly into your joinery, integrated fridges, dishwashers, bins, rangehoods, and ovens maintain a clean, uninterrupted aesthetic without compromising on functionality.

ELECTRIC DRAW SYSTEM

Experience next-level convenience with electric draw systems powered by Servo-Drive technology.

With a simple touch, drawers open effortlessly which is ideal for handleless kitchens and busy hands.

FLUTTED FEATURES

Add character and architectural interest to your kitchen with bold design elements that blend form and function.

Features like fluted island fronts and decorative rangehoods are more than just stylistic choices, they anchor the space and elevate the overall design.

ISLAND LIGHTING

Pendant lights above the kitchen island do more than just illuminate, they define the space with style and presence.

Hanging from the ceiling, these feature lights add vertical interest and help anchor the island as the heart of the kitchen.

APPLIANCE GARAGE

Keep your benchtops clean and clutter-free with a dedicated appliance garage.

Designed to conceal everyday appliances like toasters, kettles, coffee machines, and more, these compact storage zones offer easy access without compromising on style.
